

Personal Mobility Device Safety

- Please follow the rules of the road and stay off sidewalks and University Walks when riding bikes, scooters, skateboards, and other personal mobility devices.
- Be mindful of other riders, vehicles, and always yield to pedestrians.
- Store your devices outside of buildings, away from entrances, and secured with a U-lock to a bike rack.
- Lock your device with a key if possible.

Most importantly, keep safe and **always wear a helmet!**
